

Action by Missouri Clean Water Commission

Date of Action: September 7, 2005

Water Body:

Name: North Fork Salt River
Classification: C
Identification #: 0113
Length of Segment: 14.5 miles
County (ies): Adair and Schuyler

Use Attainability Analysis (UAA) Finding(s):

A whole body contact (WBC) recreation Use Attainability Analysis (UAA) was submitted by department staff on July 5, 2005. The UAA was submitted to evaluate Criterion #2 Natural, Ephemeral, Intermittent or Low-Flow Condition.

Review Committee Recommendation (RCR):

Committee Recommendation: ☐ Retain Use ☒ Modify Use ☐ Remove Use ☐ Inconclusive
Information provided in the UAA led the UAA Review Committee to make a recommendation of "Modify Use." Specifically, they recommended splitting the segment into two subsegments. They recommended "Remove Use" for the upper portion due to reported lack of enough depth to support WBC recreation, and recommended "Retain Use" for the lower portion of the segment where reported increases in depth could support a WBC recreation use.

Summary of Comment(s):

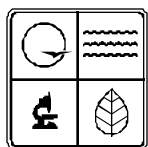

(1) Missouri Department of Conservation work requires complete body submergence to do mussel sampling. (2) UAA 0022: The survey was done on one weekday, not on the weekend. A yearlong study to collect water quality data and recreational uses since 11/28/75. Information the review committee based their recommendation on is insufficient so the use designation of WBC recreation should be retained for entire segment, not modified to remove the use designation from part of the river.

Commission Action on Comment(s):

Commission Action: ☒ Retain Use ☐ Modify Use ☐ Remove Use ☐ Inconclusive
Because of comments received, the commission voted to retain the use designation of WBC recreation for the North Fork Salt River from Section 02, Township 62 North, Range 14 West (02,62N,14W) in Adair County upstream to Section 12, Township 64 North, Range 15 West (12,64N,15W) in Schuyler County. The commission directed further investigation to determine specific locations and extent of recreational activities.

Final Order of Rulemaking:

The use designation of whole body contact recreation will be retained on the North Fork Salt River from 02,62N,14W in Adair County upstream to 12,64N,15W in Schuyler County (14.5 miles).
